

FOR THE BLOOD BROWN'S IRON BITTERS

Combining IRON with PURE VEGETABLE FORCES, which act completely CLEANSE and ENRICHES THE BLOOD. Clears the complexion, makes the skin smooth. It does not injure the teeth, cause headache, or produce constipation—ALL OTHER IRON MEDICINES DO. Physicians and Druggists everywhere recommend it.

DR. N. S. RUGGLES, of Marion, Mass., says: "I recommend Brown's Iron Bitters as a valuable tonic for enriching the blood, and removing all dyspeptic symptoms. It does not hurt the teeth."

DR. R. M. DELZELL, Reynolds, Ind., says: "I have prescribed Brown's Iron Bitters in cases of anemia and blood diseases, also when a tonic was needed, and it has proved thoroughly satisfactory."

DR. W. M. BYRNS, 26 St. Mary St., New Orleans, La., says: "Brown's Iron Bitters relieved me in a case of blood poisoning and I heartily commend it to those needing a blood purifier."

DR. W. W. MONAHAN, Tusculum, Ala., says: "I have been troubled from childhood with Impure Blood and eruption on my face—two bottles of Brown's Iron Bitters effected a perfect cure. I cannot speak too highly of this valuable medicine."

SPECIAL NOTICE

TO THE

SICK AND AFFLICTED

Dr. J. Lyman Wesley

formerly examining physician of the Middlesex Health Sanatorium, Lowell, Mass., and late of Boston, is now located at Lexington, Ky., and by request, has decided to visit Maysville on

MONDAY, FEB. 21,

and remain one week at the Central Hotel. Office hours: from 9 to 12 a. m. and 1 to 6 p. m. DR. WESLEY will visit Maysville every other week during the Winter and Spring months should his practice warrant it.

The success that attended DR. WESLEY'S efforts in this city some two years ago attracted widespread attention and caused hundreds to visit him who had almost abandoned all hope of relief, and in nearly every instance the sufferer was either cured or greatly benefited from the treatment they received. His scientific method of diagnosing disease without asking the patient a single question is a surprise to them all, but very easily understood by the doctor as he has made the human system a study for the past sixteen years, and his large experience in the hospitals of Europe and this country has enabled him to perform many wonderful cures which have been pronounced incurable.

DR. WESLEY makes a specialty in the treatment of chronic diseases, such as Dyspepsia, Rheumatism, Neuralgia, Paralysis, Dropsy and all the diseases of the Blood, Heart, Liver, Kidneys, Spine, Piles, Festicles, and in fact nearly all the diseases to which the human flesh is heir to are treated successfully by him.

Ladies that are suffering with diseases peculiar to their sex can consult the Doctor with every assurance of relief, as he gives special attention to the treatment of all female complaints.

DR. WESLEY'S

Compound Oxygen!

Is positive and speedy in its action, penetrating the air passages, conveying the germ of the compound directly to the seat of the trouble, eradicating impurities, removing all obstacles and has permanently cured the most severe and chronic forms of

NASAL CATARRH.

Deafness, Asthma, Throat and Bronchial trouble, Hay Fever, Consumption in its incipient stage, Nervous Diseases, Headache, &c. Patients can be treated at their own homes with the Compound Oxygen Treatment.

DR. WESLEY will refer, by permission, to a few of his many friends and patients in Lexington, Ky., many of whom were treated and cured by him two years ago.

SENATOR VAN WYCK'S BILL

UNITED STATES SENATORS TO BE ELECTED BY THE PEOPLE.

A Resolution Offered in the Senate for an Amendment to the Constitution to That Effect Be Submitted to the People—The Vote on the Pension Veto—National.

WASHINGTON, Feb. 26.—Mr. Van Wyck to-day in speaking to the resolution offered by him yesterday, which reads: "Resolved, as the judgment of the senate, that an amendment to the constitution providing for the election directly by the voters for United States senators should be submitted to the people for their action," said:

"Early in the session I introduced and had referred to the proper committee a bill providing an amendment to the constitution that United States senators should be elected by the people. As want of time or inclination on the part of the committee prevented action, I have asked the adoption of the resolution. As some of the errors and mistakes of the framers of the constitution have been corrected, so the people are demanding this must be. And while the equality of the states is preserved by an equal number from each, the states will be more fitly represented and the rights of the people recognized by amending the constitution so they shall be elected directly by them."

"Gouverneur Morris in 1787 said: 'The senate was wanted to keep down the turbulence of Democracy.' It has succeeded at times in keeping down the turbulence of the people in their demands for redress of grievances and exemption from unjust and oppressive taxation. Now the people are demanding, and experience has demonstrated that it is not only safe but growing every year more necessary, they should directly elect those who represent the state, as the state is emphatically the people. The control of the legislatures by blandishments, promises of money, has been reduced to a system to that extent that one of the most successful of the manipulators of that machinery has boldly proclaimed that it is much easier and cheaper to purchase venal legislators than electors at the polls. The necessity for this change has been strikingly manifest within the last month, in the states of New Jersey, Indiana and Nebraska."

"In the first two every scheme and subterfuge has been used to obtain an advantage by stealth and fraud that might secure a victory, regardless of what the people desire. And in the latter a direct expression of the people on the question of preference, as allowed by the constitution and laws of that state, and then super-added the still more emphatic declaration of the voters by making the choice of United States senator a test in the election of members of the legislature, and when the people, as voters, had signified their choice by electing a majority of the legislature pledged to that choice. True they were from both political parties, but a majority—and fully instructed. That was the judgment of the people of a great state. Then the railroad corporations interpose to reverse that judgment, and beat the people by their influence and wealth; by their mysterious agencies, so potent, actually controlled representatives against open and declared instructions, on the pretext, too thin to cover the brand corporations burned into their chateaus, of great party loyalty, that in a Republican state a Republican, United States senator should not be elected except by Republican votes."

"Thus when the votes of those instructed and pledged would secure what the people desire, enough purchased traitors withhold their votes to defeat what they knew the people had demanded. There is a serious crisis approaching, when the people, the toilers, without the form of party, will be arrayed at the ballot-box against their oppressors. The infliction of injustice and wrong are of greater injury to the republic than giant powder or dynamite. When capital, in defiance of the constitution and laws, can demand payment of debts in gold coin only; when the upheaval of labor can be repressed by indictments and fine or imprisonment for a conspiracy; when throughout the northwest the virgin soil is being exhausted to raise grain, make pork and beef, the producer receiving barely the cost of production, and when the products reach the sea-board so encumbered with railroad and other charges, that meat three times a day, our former boast, is often denied the laborer; when the tenant class is yearly increasing; when three-fourths of all the farms in the republic are mortgaged; when the additions of wealth are largely to those who count possessions by thousands and millions, and labor must return thanks for the privilege to toil for reward which barely provides board and clothing. The Democracy carried slavery and fell, although in falling it did not entirely perish. The Republican party has carried monster corporations equally as unrelenting and exacting, and are reeling, stumbling, falling with the terrible load. And the humble warner waving the signal flag of danger is run down and crushed as an enemy in the path of bloated, unrelenting and unreasoning power."

"And now, reckless, nervous leaders tell us there is a crisis as they madly beat the waves threatening to submerge the last feeble, frail resting place, and in their insane and idiotic folly tell about straight, reliable partisans elected in defiance of the express demands of the people to save what is left in the upper branch of congress. Year by year the party becomes weaker, even here. The desperate remedy is prescribed that the influences and wealth and tools of huge corporations shall be invoked to overthrow the people and secure a temporary victory, while the leaders appear as unconcerned as to the real cause of danger and safety as Nero when he fiddled at the destruction of Rome. During this time waning power is departing from the senate, and in their wild delirium to save, they contribute to the certainty of defeat. And thus it becomes more necessary that those occupying seats in this body should receive their commission directly from the hands of the people."

Senate.

WASHINGTON, Feb. 26.—A communication from the secretary of war, with reports of engineer officers, were presented, relative to bridges over the Hudson at Poughkeepsie, and over the Mississippi at St. Paul. Referred to commerce committee.

A letter from Gen. Sheridan was presented,

inviting a senate committee to be present at the unveiling of the statue of Gen. Garfield, in Washington on May 12. Referred to library committee.

Among the bills reported and placed on the calendar were the following: House bill to annex a portion of the territory of Idaho to Washington Territory; granting right of way to the Denver & Rio Grande railroad through the Fort Crawford military reservation.

The following were reported adversely: Resolution for the appointment of a committee to visit the Mexican frontier and the City of Mexico; bill to amend the act for the construction of a bridge across the Arthur Kill.

The house bill was passed providing for the payment of \$500 to J. F. Filcher, of Kentucky, out of the Texas indemnity fund for a \$100 bond and \$505 paper money of the Republic of Texas.

The Edmunds resolution, electing Senator Ingalls president pro tem. of the senate, to take effect at 1 o'clock to-morrow, was called up. Mr. Cockrell moved to amend by substituting the name of Senator Harris. The amendment was rejected by a vote of, years 36, nays 39. The vote was strictly a party one. Mr. Riddleberger voted with the Republicans. The resolution was adopted without division.

The resolution offered yesterday by Mr. Hoar providing that no investigation should be undertaken with England, having for its object the change or abolition of existing duties, under present circumstances, was taken up. A motion was made to refer the resolution to the finance committee. Mr. Hoar said the adoption of the resolution would allow a good deal of talk in the neighboring country. Its adoption would do more to save American fishermen in the next six months than anything else that could be done.

Mr. Beck thought that the senate should not express an opinion that no existing duties should be modified or changed before an investigation by a committee.

Mr. Morgan said the resolution proposed to commit the senate in advance to a broad, firm, unyielding declaration that no reciprocity should exist with Canada.

House.

WASHINGTON, Feb. 26.—The president's veto of the bill for the relief of the estate of the late John How was submitted and referred to committee on claims.

The fact of the passage by the senate over the president's veto of a bill for the relief of Thomas H. Hopkins, was communicated to the house and referred to invalid pensions.

Mr. Morrison objected to non-concurrence in the senate amendments to the bill creating a department of agriculture and labor, and the bill was referred to the committee on agriculture.

The house insisted on its amendments to the senate retaliation bill, and Messrs. Belmont and Rice were appointed conferees.

Mr. Hatch, of Missouri, moved to suspend the rules and pass the senate bill providing for agricultural experiment stations.

Mr. Randall, of Pennsylvania, asked the right of way from now on for appropriation bills.

The speaker said that although during the last six days of a session it was proper for any member to ask suspension of rules, it was the prerogative of the chair to recognize a member or not. The chair would enter into the general business of recognition until the appropriation bills were passed. But having recognized the gentleman from Missouri his motion was now in order.

Mr. Hatch's motion to suspend the rules and pass the bill was then agreed to by a vote of 152 to 12.

The deficiency appropriation bill was reported and referred to the committee of the whole.

The conference report on the invalid pension bill was submitted and agreed to.

The house then went into committee of the whole on the pension appropriation bill.

The amendment appropriating \$12,000 for the repair of the naval-war college building on Coaster's Island was, after debate, rejected.

The Vote on the Pension Bill.

WASHINGTON, Feb. 26.—Of the 175 votes cast to pass the dependent pension bill over the president's veto, 139 were cast by Republicans and 38 by Democrats. Not a Republican vote was recorded in favor of the veto, but the line was solid against it. All of the southern Democrats voted to sustain the veto except Gen. Woolford, of Kentucky, and Mr. Taubee, of the same state. When Judge Holman, of Indiana, announced his vote in favor of the bill despite the veto there were roars of laughter, and the vote of Randall, cast also to pass the bill, was greeted with loud applause.

Of the Ohio delegation, Hill, Warner and Outwaite voted to uphold the president. The balance of the delegation, with the exception of Anderson, Foran and Ellsberry, voted to pass the bill. Gen. Anderson was paired for the bill over the veto, while Ellsberry and Foran were absent unpaired. Ellsberry is reported sick at home.

The thirty-eight Democrats who voted to pass the bill over the veto were from:

New York—Bliss, Mahoney, Merriman, Pinder and Spriggs.

Indiana—Bynum, Ford, Holman, Kleiner, Matson and Howard.

Ohio—Campbell, Geddes, LeFevre, Seney and Wilkins.

Michigan—Carleton, Eldridge, Mayberry and Tarsney.

Missouri—Hale and O'Neill.

Iowa—Frederick, Murphy, Swope and Weaver.

Illinois—Landes, Lawler, Neece, Riggs, Townsend, Ward and Worthington.

Delaware—Lore.

Massachusetts—Lovering.

Pennsylvania—Randall.

Kentucky—Taubee and Woolford.

Although the vote on its face carries with it twenty-five votes more than the number necessary to sustain the veto, it is only upheld by thirteen votes. Take thirteen votes of those voting to sustain the president and add them to those voting to pass the bill, and there would have been the necessary two-thirds to pass it.

The bill originally passed the house by a vote of 180 to 76. Of those who voted for it originally twenty-six turn tail-feather and ran when the president spoke. Included in this number are Gen. Bragg, of Wisconsin; Morrison, of Illinois; Gen. Warner, Hill and Outwaite, of Ohio, and half the Pennsylvania and New York Democrats.

New Cabinet Officer.

WASHINGTON, Feb. 26.—The bill to enlarge

the powers and duties of the department of agriculture that passed the senate Wednesday awaits only the agreement of the house to the senate amendments and the signature of the president to create a new executive department and add to the cabinet another member with the title of secretary of agriculture and labor. The president has as yet given no intimation to any one as to whether or not he will approve the bill, but it is generally supposed that he will, although several well informed officials have expressed the belief that he will veto it as unconstitutional. No such question, however, seems to have been raised when the other departments were created. Mr. Colman has not yet received any information from the president as to whether or not he will be appointed, and owing to the lateness of the passage of the bill the secretary will not likely be selected until after the adjournment of congress.

Minister Pendleton's Silence.

WASHINGTON, Feb. 26.—Minister Pendleton has returned to the city, but declines to be interviewed. The story that he is to enter the cabinet has been revived by his saying to a friend, who expressed regret that he was so soon to return to Berlin, that he was not so sure about that, and that it was not by any means settled that he would return at all. This statement, taken in connection with his refusal to see reporters, leads to the belief in some quarters, that the president may wish him to succeed Mr. Manning.

One Commissioner Selected.

NEW YORK, Feb. 26.—The Sun says: "President Cleveland has tendered to Andrew D. White, ex-president of Cornell University, and ex-minister to Berlin, one of the commissioners under the interstate commerce bill. He is now in this city, having come here to consult friends as to the advisability of accepting the place. The letter from the president offering him the office is quite long. Mr. Cleveland says, among other things, that he is much troubled over the composition of the commission. He feels it necessary that New York should be represented in it, since this state is the center of the railroad systems and the transportation business of the whole country. His wish is expressed to secure as the New York member of the commission a man of high standing, integrity and ability. The proffer is a peculiarly complimentary one to Mr. White, since he was one of the strong supporters of Mr. Blaine for president. It is understood that he was personally inclined to accept the place, but has been induced by friends to decline it, apparently on the ground, as expressed by one of them, that the commissioners can hardly expect to satisfy either the people or the railroads, and must inevitably incur the reputation of poor abilities, however able they may really be."

Changing Inauguration Day.

WASHINGTON, Feb. 26.—Before the house committee on judiciary, to-day, Representative Craine, of Texas, made an argument in support of his proposed amendment to the bill changing the presidential inauguration day to April 30. Mr. Craine's amendment harmonizes other sections of the constitution to the provisions of the bill by amending Article 12 of the constitution in relation to the time for the meeting of congress to count the vote of the states for president, etc. The amendment also terminates the Fiftieth congress on December 31, 1889, and provides that all subsequent congresses shall begin on the second Tuesday in January. At the conclusion of the argument, Mr. Taylor moved to report the senate amendment favorably, but this motion was defeated. Mr. Tucker, the chairman, was then instructed to prepare in season for the committee's action to-morrow, a substitute for the senate proposition embodying the Craine amendment.

Bills Becoming Laws.

WASHINGTON, Feb. 26.—The president has signed the bill appropriating \$148,000 as indemnity for losses suffered by Chinese subjects at Rock Springs, W. T., during the riots. He has also signed the bills for a public building at Huntsville, Ala., Augusta, Ga., and Houston, Tex. The bill for the erection of a public building at Lynn, Mass., has not yet been signed. Unless the president acts upon the measure to-day it will become a law under the ten days limit clause. The trade dollar bill has not yet been approved, but will be within a day or two.

Fortification—Renewed Wedding.

NEW YORK, Feb. 26.—A Washington special quotes Mr. Carlisle as saying that he "will favor one kind of a fortification bill, but he wants it to be expended about the treasury department." That is the only place he says that seems to need fortification. A special to the same paper says that there is a rumor that Secretary Bayard may marry Miss Sophia D. Markoe, a handsome blonde, who for some years has occupied a clerical position in the state department.

National Bank Circulation.

WASHINGTON, Feb. 26.—The house committee on banking and currency, have agreed to favorably report a bill fixing the amount of deposit to secure circulation for National banks having a capital stock of less than \$300,000 at \$5,000; and for banks having a capital stock above this amount at \$20,000. The bill also covers into the treasury the \$90,000 National bank redemption fund.

A Blaine Victory in the Senate.

WASHINGTON, Feb. 26.—The selection of Senator Ingalls as presiding officer of the senate is regarded as a triumph for Mr. Blaine. Mr. Hoar opposed Blaine's nomination in the last Republican convention. Mr. Ingalls is a warm friend of Mr. Blaine.

No Extra Session.

WASHINGTON, Feb. 26.—It is learned on high authority that the president expects to avoid the necessity for calling an extra session of either house of congress. He will not, however, be prepared to submit the treasury and interstate commerce nominations for several days.

Knocked Out in the First Round.

TROY, N. Y., Feb. 26.—The glove fight between Pat Shaughnessy, of this city, and Mike Lucie, of Philadelphia, was won by the latter in the first round, Shaughnessy receiving a blow on the neck which knocked him out.

Walking Match Score.

PHILADELPHIA, Feb. 26.—The score at the rink at 12 o'clock was: Vint 416 miles; Hart 405 miles; Panchot 391 miles; Bennett 380 miles; Normac 380 miles; Esion 318 miles; Tilt 277 miles; Newhart 231 miles.

PREACHERS MOBBED.

A Party of Men and Women Horribly Abused at Columbia, South Carolina.

COLUMBIA, S. C., Feb. 26.—For the past two weeks, five white itinerant preachers from the north, three men and two women, calling themselves "Holiness Evangelists," have been holding services in the streets here. In their harangues they attacked the Catholic church, clergymen of other denominations and slandered the ladies of Columbia. They were also stirring up ill feeling among the negroes, on whose charity they lived.

Wednesday night 100 students of the state university ordered them to leave town within twelve hours, upon pain of being tarred and feathered. The Evangelists refused. The mob grew furious and, fastening ropes around the necks of the victims, dragged them out into the rain and around town. The women could hardly walk from fear and cold. A great crowd followed, crying "lynch them," and pelting the unfortunates with stones and bricks. This was kept up for two hours, when the women gave out from exhaustion. The crowd then hauled them on a train for the north. The evangelists left all their effects behind.

Probably a Fatal Fall.

CINCINNATI, Feb. 26.—Adam Saul, aged thirty-nine years, of 1037 Vine street, employed as machinist at the Cincinnati Safe and Lock company's establishment at 33 Elm street, met with an accident at 8 a. m., which will probably result fatally. He was engaged in oiling the elevator machinery on the second floor when he lost his balance and fell through the elevator hatchway to the cellar, twenty feet below, striking with his right leg under him, breaking it. In his descent his head struck the first floor and fractured his skull. He was taken home to his wife and three children by patrol No. 1. His condition is extremely critical.

Horrible Confession.

PHILADELPHIA, Feb. 26.—The confession of Wilson, as to the way in which Gaines body was cut up is partly confirmed by discoveries made by the police of a blood stained saw and clothing covered with blood, though the cleaver which Wilson says he used has not been found. It is believed that Mrs. Tabbs helped kill Gaines. The victim is known to have been badly poisoned a few days before the murder. He told his friends that a jealous woman had put poison in his beer. Another important clue in the case was found yesterday, namely, a bundle pawned by Mrs. Tabbs, which contains clothing belonging to Gaines.

Israelites Preparing for a Feast.

CHICAGO, Feb. 26.—The invoices for a large consignment from Jerusalem were received at the custom house yesterday. The invoices consist of nearly 500 gallons of wine and upward of 100 gallons of liquor, and are intended especially for the Feast of the Passover, which begins April 9, and continues one week. The feast is observed among the Hebrews throughout the world with imposing ceremonies and rejoicings. The wine is said to be of superb quality, seven years old. The present invoices left Jerusalem December 15, and came by way of Jaffa, the Suez canal and London.

Injured at a Fire.

NEBRASKA CITY, Neb., Feb. 26.—At 6 o'clock yesterday fire was discovered in the large building occupied by Robert Hawkes, general store. It soon spread to the Masonic and Old Fellows' three story block and notwithstanding strenuous efforts on the part of the firemen the buildings were entirely destroyed. The loss is estimated at \$150,000, with an insurance of \$15,000. Ten firemen were buried beneath the debris of a fallen wall. They were removed in a badly bruised condition and one of them, C. E. Bickford, is thought to be fatally injured.

Pensioning Tennessee Soldiers.

NASHVILLE, Tenn., Feb. 26.—The house of representatives, by a party vote, passed the bill to increase the pension of soldiers of Tennessee, who lost the use of both eyes and both legs and arms in the late war, from \$10 to \$25 per month. The bill provides that the pension shall be allowed to Confederate soldiers and Federal soldiers not pensioned by the United States government. Objection was made to the measure on the ground that it recognized rebellion, and was therefore unconstitutional. The bill passed by a vote of 57 to 34.

A Distressing Railroad Accident.

CINCINNATI, Feb. 26.—The Cincinnati Southern train No. 3 ran down two section hands on the trestle two miles south of Ludlow, Ky., last evening. They were Dennis McCarthy, aged forty, of Louisville, Ky., and Thomas Carroll, married, aged forty-five, of Eighth and Scott, Covington, Ky. McCarthy's leg had become fastened in the trestle, and Carroll was assisting him when overtaken by the train. Both were taken to the Good Samaritan hospital with their legs and thighs broken. Carroll will die.

A Coming Scull Race.

NEW YORK, Feb. 26.—Articles of agreement were signed to-day, by Edward Hanlan and John A. St. John, the latter representing Jacob Gaultner, for a three mile with a turn single scull race, for the championship of America, \$2,500 a side and the gate receipts, on May 30 next, or on the first favorable day following. A forfeit of \$1,000 a side was deposited with Hamilton Busby, of the Turf, Field and Farm, who is to be final stakeholder and appoint a referee, and choose the course, if the principals cannot agree.

Express Robbery and Forgery.

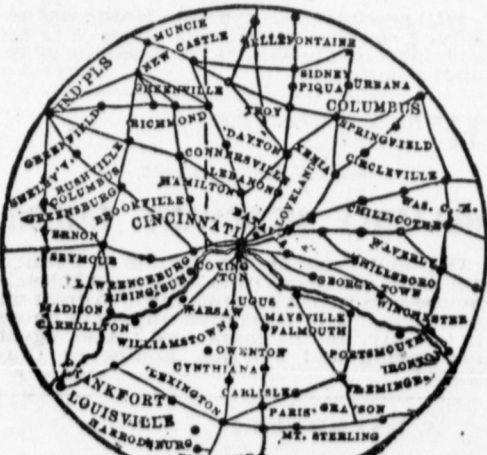

LAFAYETTE, Ind., Feb. 26.—Capt. Godman, chief of police, has received a letter from the city marshal of Greensburg, Ind., stating Charles Kennett, arrested here for robbing the American Express company, is wanted there for forging a check of \$350 in that city in September, 1884. He appeared under the alias of Samuel, was indicted by the grand jury, but escaped arrest. He is now in custody at East St. Louis awaiting trial on the express robbery.

Fought to a Draw.

CLEVELAND, O., Feb. 26.—Joe Mckee, of Cincinnati, colored, weighing 141 and Tom Healon, of this city, 137 pounds, fought eight rounds to a draw last night for a purse.

Heaviest Snow of the Season.

CALAIS, Me., Feb. 26.—Snow has fallen heavily here all day. It is the heaviest storm of the season. Trains are delayed.

JOSEPH R. PEEBLES' SONS,

GROCERS,

Pike's Building, Cincinnati, O.

ESTABLISHED 1840.

COLONEL SANDS, late of the Enquirer, and Henry Worthington, of Covington, will revive the Cincinnati Sun.

THE "pension schemers" will not succeed in breaking in the Treasury as long as Grover Cleveland is President. It is gratifying to learn that his veto of the Dependency Pension bill has been sustained.

SPEAKER CARLISLE evidently has no intention of trying to succeed Senator Beck. If he has, he will have to adopt a different plan from his present one, otherwise the distinguished Ex-Scotchman will have everything his own way when the next Legislature meets.

IN a recent decision, the Court of Appeals holds "that killing stock by the cars of a railroad company is *prima facie* evidence of negligence, and the burden is on the company of showing that the killing was the result of an accident that could not have been avoided, under the circumstances, by the exercise of ordinary care and diligence."

SENATOR HARRIS is not opposed to the new Revenue law. All reports to the contrary are untrue. He believes such a law has been needed for years. There are one or two features of the law, however, which he thinks ought to be amended, and in this he is right. General Buckner's friends should go slow. It may happen that they will be called on to support Senator Harris as the nominee of the party.

THERE are a number of cities we could name here in this State whose citizens are making active efforts to boom their town. The men of Maysville remain idle, and are making no effort that we know of to improve the place. Their own success and prosperity depends upon that of the city. Then why not go to work? Where all is to be gained and nothing lost, we cannot see any reason for remaining idle and listless longer.

ALL is not lovely in the Republican fold. The Louisville Republican is accused of using its influence to defeat the nomination of Colonel W. O. Bradley. And the Hon. William Cassius Goodloe is said to be helping the Falls City paper in this attempt. Their actions have stirred up the Bradley men, and one of them fires back in the following vigorous language:

"Mr. Goodloe is a son-in-law of James Beck, Democratic United States Senator from Kentucky, and has tried for many years to act as a self-appointed boss of the Republican party of Kentucky. He has done more to disrupt and destroy the Republican party in Kentucky than any other prominent Republican in the State. Now he turns on Mr. Bradley to defeat him. We say to the Republican and Mr. Goodloe: Gentlemen, your mask is too thin, your real design is clearly visible to the Republicans of Kentucky. Hon. W. O. Bradley will be the Republican nominee despite your efforts to defeat him." Our Republican friends should cease fighting for an empty honor. It doesn't matter much who they nominate. Senator Harris or General Buckner or some other good Democrat will succeed Governor Knott.

Here's Wealth.

The Hazel Green Herald says: "Here in Eastern Kentucky, within a day's ride of the Herald office, we can show more and better coal; more different varieties of bituminous coal; more and finer cooking coal; more and finer canal coal; more and better iron ore; more and finer walnut timber; more and finer ash; more and finer beech; more and finer poplar; more and finer black, red and white oak. Also the only belt of white pine timber south of Michigan. In addition we can show a bank of pure isinglass, in quantity unsurpassed; the largest bank of white glass sand in the United States; more and better building stone than any six States in the Union."

Turnpikes-Tolls.

In the case of the Maysville and Mt. Sterling Turnpike Road Company against Ratliff, from Bath County, the following is the opinion of the Court of Appeals, reversing:

First—To entitle an individual to an injunction restraining a turnpike company from erecting a toll-gate at a particular place it must appear that the gate would be a public nuisance, and in addition that the plaintiff would suffer a special injury distinct from that suffered by the public.

Second—A turnpike company has the right to place its gates so as to most effectually and certainly collect what it is legally entitled to, in so far as it is not restricted by its charter, and to that end may also change any gate after it is once established.

Third—A turnpike company may, unless its charter otherwise provides, erect gates at a less distance apart than five miles, though the toll must be proportioned according to distance.

Fourth—A turnpike company may, without rendering itself liable for obstructing the highway, erect a toll-gate and a toll-house upon its right of way, provided it leaves the portion of the road covered with stone free for travel.

LABOR NOTES.

[Communicated.]

A friend of ours writes to inquire what kind of a party the Knights of Labor would have in this country. Here is our reply: We want a party that will run the Government in the interest of the whole people, a party that would not legislate solely in the interest of corporations; a party that would legislate millions off the face of the earth by placing an income tax upon them; a party that would tax every man's income that was over \$1,000 per year, and the larger the income the heavier his tax should be—the man whose income is \$10,000 should be taxed 50 per cent.; the man with \$20,000 income should be taxed 75 per cent, and so on. In this way millionaires would be taxed out of existence. It is no worse for them to be taxed to help support the Government than it is for the poor man to be taxed to death to support the Government and make millionaires too. We want a party that will not sell itself to railroad syndicates or national bankers; a party that will put the control of all railroads and telegraph lines in the hands of the Government, and abolish the convict system; a party that will not allow Wall street to manage the financial affairs of this country; a party that will legislate for the people instead of monopolies. The only way to have such a party is for the people themselves to rise up in their might and bury both existing parties out of sight.

It seems to me that a short sermon by some of our preachers on the text, "What Shall We do to be Saved?" as applied to the toiling men of this city, would not be out of place, inasmuch as it is the most important question and issue of the day and times.

Some of the working people here have not yet learned that "in union there is strength," and that the only protection to labor lies in thorough and systematic organization.

In a few years big corporations will no longer declare 12 per cent. dividends with a huge surplus over, which rightfully belongs to the toilers in their employ. Little children will no longer drag their weary bodies in and out of the mills. Frail, delicate women will no longer be obliged to go to work long before daylight and work till darkness again covers the earth, thus being permitted to breathe the out-door air in God's blessed sunlight but once a day in order to earn barely enough to keep body and soul together. All this, and more, will be accomplished by the Knights of Labor.

The K. of L. Assembly was organized here eight months ago with about twenty members. Now they have in round numbers a membership of—Come in and see.

We have one business man who thinks that the K. of L. ought to be wiped out of existence, and his impudence may be the means of the order getting a foothold here in the near future.

Workingmen and women, rally to the support of organized labor principles and the protection of your own individual interest. You have been ground down into the monopolistic dust too long already, and it is high time that you are awakened to the necessity of taking hold of the great labor movement. The toilers should be treated more like human beings and less like convicts and cattle.

SIMILIA SIMILIBUS CURANTUR.

What though the days are cold and drear,
The sky with clouds o'ercast?
And all our woes be past,
The days and the butternut
Will soon appear to view,
And all our blues be swallowed up
By skies of deeper blue.

"As Good as New."

are the words by a lady, who was at one time given up by the most eminent physicians, and left to die. Reduced to a mere skeleton, pale and baggard, not able to leave her bed, from all those distressing diseases peculiar to suffering females, such as displacement, leucorrhoea, inflammation, etc., etc. She began taking Dr. Pierce's "Favorite Prescription," and also using the local treatments recommended by him, and is now, she says, "as good as new." Price reduced to one dollar. By druggists.

Talking Across the Continent.

"I've heard all the stories of long telegraph circuits," said a postal telegraph operator at Buffalo, "and in my time I've worked some pretty long ones myself, but I never heard of anything that equaled one that we had the other afternoon. Our people are building a line from the terminus of the Canadian Pacific to 'Frisco, and I heard Vice-President Henry Rosener talking with President Chandler in his office, in New York city. Mr. Rosener was at New Westminster, which is on the Pacific coast just opposite Vancouver island, so they were talking across the continent. By that route it is about 9,000 miles, for the wire was made up via Buffalo, Toronto, and the Canadian Pacific. Every few minutes I could hear Medicine Hat chip in, and all along the circuit the operators were 'on.' It was a wonder to everybody, and the instruments were working as clear as a bell on that long copper wire."—Chicago Times.

Dr. G. M. Williams has removed his dental office to building on Third street, adjoining Dr. Shackelford's office.

A WOMAN IN FLAMES.

Terrible and Probable Fatal Accident to Mrs. Bruner, in Indianapolis.

INDIANAPOLIS, Feb. 26.—Mrs. J. M. Bruner, of this city, was terribly burned yesterday in an attempt to fill the tank of a gasoline stove. The fluid became ignited and communicated with her clothing, and she was soon enveloped. She made a desperate effort to suppress the fire with a cloth or blanket, but failing, she then started for the residence of Benjamin Cully, in the same yard. By that time every particle of her clothing was on fire.

Mrs. Cully heard her cries and those of her little daughter, and ran to her assistance, and, as she came up, Mrs. Bruner attempted to throw her arms about her, but finally she realized what Mrs. Cully was saying, and in obedience to her instructions threw herself on the ground while the latter wrapped the blanket about her, and in other ways tried to stamp out the fire. Neighboring ladies came to her assistance and the fire was finally subdued, but not until all of Mrs. Bruner's clothing was in shreds, and even her shoes were burned to a crisp. It was necessary to cut the clothing away, and she was then carried into the house. It is not thought that she can recover.

The Schooner Baylie's Wood Sunk. NORFOLK, Va., Feb. 26.—The schooner H. W. Godfrey arrived here yesterday with Capt. Coombs and the crew of the schooner Baylie's Wood on board. Capt. Coombs said that he was on his way from Boston to Baltimore, and that while off Fenwick Islands Wednesday morning the schooner struck a sunken wreck, sprung a leak, capsized and sunk. The officers and crew were rescued by the Godfrey. The Wood was a vessel of nearly 600 tons, built in 1832 at Boston, and owned at Taunton, Mass.

Threatened Strike in Florida. JACKSONVILLE, Fla., Feb. 26.—The threatened strike of Locomotive engineers on the Florida Railway and Navigation company's system made no progress to-day. The chief of the Locomotive Engineers' Brotherhood, P. M. Arthur, has gone to Savannah, after appointing a grievance committee to wait upon the officials of the road and demand an increase of wages equal to those now paid on other roads in Florida. The officials say they will not pay it, so it is believed a strike will surely follow.

River Bank Caving In.

VICKSBURG, Miss., Feb. 26.—The river bank at Leota, Miss., suddenly began caving yesterday and made such rapid headway that the warehouse and office at the landing, with their contents, including a large quantity of corn, hay, pork and other merchandise, went into the river last night. The caving has not yet stopped and the large storehouse of Frank & Elkas is expected to go into the river at any moment. A number of residences are also in danger.

A Short and Sweet Fire.

BALTIMORE, Feb. 26.—The large candy factory on the corner of Howard and Baltimore streets, belonging to and operated by Darby & Co., was totally burned to-day. The building was a five-story iron structure, and nineteen minutes after the fire broke out, the building was a mass of ruins, the Howard street wall having fallen into the street. The loss is \$30,000; fully insured.

Lake Line Leased to New Parties.

NEW YORK, Feb. 26.—The Wabash Lake line of steamers, which was operated by the Wabash, St. Louis & Pacific railway, from Buffalo to Toledo, has been leased to the Erie railroad and will be put on the Union Steamboat line, which is the Erie's Lake line from Buffalo to Chicago, and the Toledo service will be discontinued.

Editor Grady at Home.

In May last a Memphis reporter, who was swinging around the southern circuit in search of a newspaper that could not exist without his services, chanced to visit Atlanta and called upon Mr. Grady.

"I entered a luxuriously appointed ante room and confronted a handsome young man wearing a priceless diamond pin and a delicate bang.

"Wait here until I seek the presence," he said, solemnly, and disappeared through an inner door.

"By this time nerve was as scarce about my person as the price of board.

"Presently the handsome young man returned and said, 'He will see you.'

"I followed him and found myself in Mr. Grady's audience chamber. It was furnished with Oriental splendor. There were four persons in the room—the governor of the state, a United States senator, a stenographer and the man I was seeking. The great journalist was seated on a rich divan, dictating to the stenographer, while the others hung breathlessly upon his words. I took him to be about 40 years old. He is thick set and has the appearance of a man whose stomach never gets left, if he knows it. His head is round and covered with a short growth of black hair, his face sallow, smooth shaven and lighted by a pair of cold, piercing black eyes. His voice is well modulated, but penetrating. It went through me like a knitting needle and stuck in the wall beyond.

"Tell him," he said to the shorthand man, "I have my eye upon you, and if Gordon does not get a majority of the delegation from your county—Well, sir," suddenly discovering me, "what do you want?"

"I thought Uncle Remus was here," I stammered out. Nothing else occurred to me. I was paralyzed.

"You'll find him down at Miss Sally's," replied Mr. Grady, and somehow in about a minute I found myself on the pavement outside."—Memphis Avalanche.

Finger Bowls and Tips.

The style of serving finger bowls almost always accords with the prices charged for the dinner. This waiter brings you a bowl of strong yellow or bronze tinged, a coarse color, and no napkin. He will bring you a check then at least twenty-five cents less than you expected, but another waiter, who prepares the finger bowls in your sight with ostentation and sprays the perfumes in them with a lavish hand, will charge you at least fifty cents more than you figured it in your mind when giving the order, and he is sure to bring back nothing less than a quarter in change, that you may fee him liberally. It is peculiar to finger bowl New York restaurants that they never have any five cent pieces. The smallest piece of change a waiter ever brings is a dime. That is only with plain glass finger bowls. If the bowl is cut glass the change is in quarter or halves. The only man who ever escaped giving a fee is said to be the one who told the waiter that the place was run much better under the former proprietor. The waiter was so dazed that he broke two finger bowls, and in the confusion the man got away.—New York Star.

Campbell. At 10 p. m., a bountiful lunch was served and when the evening wore rapidly away, all left, feeling that it was very "good to have been there."

River News.

THE Boston is due down, at 9 a. m. tomorrow.

AT last reports the Ohio was falling at all points between Point Pleasant and Pittsburg.

DUE up to-night: Bonanza, Portsmouth, 8 o'clock; Telegraph, Pomeroy, and General Pike, Pittsburg, 12 o'clock.

A log caught in one of the Gretna Green's wheels this morning, and the boat was carried down a quarter of a mile before the obstruction was removed.

THE rise here is out of the Kanawha and Big Sandy. The flood in the latter stream did considerable damage to the lumber interests, carrying several rafts into the Ohio.

FROM 6 p. m. yesterday to 10 a. m. today the rise here amounted to two and one-half feet. The river is bank full once more, and the heavy rains last night and this morning will tend to keep it that way for some time.

Church Chimes.

THE pastor, Dr. John S. Hays, will hold the regular services in the First Presbyterian Church to-morrow.

Rev. D. A. Beardsley, pastor, will conduct the usual services in the M. E. Church, South, to-morrow.

Central Presbyterian Church, Rev. Russell Cecil, pastor. Preaching to-morrow at 11 a. m. and 7 p. m. Sunday school and Bible class at 9:30 a. m.

THE Baptists will worship in the court house to-morrow. Preaching at 11 a. m. and 7 p. m. There have been additions to the membership every Sunday for the past four weeks.

Murphysville Methodist Episcopal Church—Sunday school at 9:30 a. m.; preaching at 11 a. m.; gospel service at 7 p. m., followed by "blackboard sketch," by Theodore F. Garrett, pastor.

A revival at Frankfort, Ind., in the past few weeks has resulted in 187 additions to the membership of the Presbyterian Church, and large additions, also, to the Baptist, Methodist and Christian churches.

Rev. Thomas Hanford is having large congregations in his protracted meeting in the Methodist Episcopal Church. The usual services to-morrow. The pastor's subject for the sermon in the morning will be "The Crowned Archer on the White Horse."

SERVICES at St. Patrick's Church to-morrow as follows: first mass 7:30, second mass 9 o'clock, followed by a sermon in German for the German portion of the congregation, and last mass at 10:30. Holy rosary and benediction of the blessed sacrament at 2 p. m.

THE protracted meeting in the Christian Church is one of the most successful ever held in this city. The congregation last night was perhaps the largest that has yet attended. The main room and the gallery were crowded. There were seven additions, making seventy-five to date. Preaching again this evening at 7 o'clock, and regular services to-morrow.

Rev. H. C. Morrison, of Covington, has been engaged for the past two weeks in a meeting in the M. E. Church, South, at Winchester. The Democrat, of that place, says: "Never to our knowledge has there been such a shaking up in the morals of our community as has been experienced during the past ten days. The revival in progress at the Methodist Church has increased in power and volume until it is the principal topic of conversation. The sermons of Bro. Morrison are models of simplicity and of originality and take hold of his hearers with a strange, mysterious power. The house is crowded day and night and many are unable to find seats." At last accounts there had been about thirty additions.

THE temperance rally in the Sardis M. E. Church on Wednesday night was a success, both in point of numbers and interest. The address, by Rev. Theo. F. Garrett, was copiously illustrated with three eye-catching designs on the blackboard, as follows: In semi-circle, at top of board, the motto "Hand in Hand," with joined hands just below motto, uniting "Religion and Temperance." Another design was a large, heavily-shaded cross with the inscription "Come to Jesus." The most striking design was the tall light-house built on the rocks in the sea, with its real light sending a "gleam across the wave" to help the ship, "Prohibition," "rescue the perishing." Mr. James S. Davenport, of Ashland, gave an impressive reading, entitled, "Oh, Save Thy Boy!"

Of Interest to Teachers.

Went Out to See the Sights.

THE Cincinnati Enquirer, of the 25th, says: "Shortly before one o'clock this morning a verdant-appearing individual, giving his name as Jacob Gohs, from near Maysville, Ky., walked into Hammond-street Station, and asked Lieutenant Thornton if he had a lost boy."

"How old is he?" asked the officer.

"Bout twenty-two, light complexion, and weighs about 160 pounds."

"Upon being informed that no such infant had been found roaming at large Gohs told the officer how he and the lost one, who is named Richard Peck, had come to town and sold a quantity of potatoes. For fear of losing the money Gohs gave Peck, who worked for him, \$70 of it to keep. Both put up at the Bethel. Early in the evening Peck went out to see the town, and at a late hour had not returned, much to Gohs' discomfiture."

Stock and Crops.

AT the combination sale of fine-bred horses at Lexington this week, E. C. Slack bought a fine bay stallion, foaled in 1884 by Almont by Reed's Almont, dam, by Bay Messenger.

IN three days this week the sale of horses at Lexington amounted to \$93,540.

Walker & Sengstack, of Cincinnati, have bought 1,000,000 pounds of tobacco in Scott County—some of it at 7 cents.

THE Bourbon News reports the sale of 59,000 pounds of tobacco this week at from 2 to 6 cents.

Personal.

Mrs. S. E. Otto is visiting relatives at Richmond, Ky.

Miss Ida Heflin left yesterday to visit friends in Huntington, O.

Mrs. J. M. Evans returned from Blue Licks this morning. She was accompanied by Miss Lizzie LaRue, who will be her guest for several days.

Miss Ella Burrows, of Front street, is spending a week with her sister, Jennie Burrows, who is attending the East Kentucky Normal School at Catlettsburg.

New Drug Store.

W. C. Shackelford has opened a new drug store in "Cox Building," corner Third and Market. Pure drugs. Fine old wines and liquors for medical purposes. Toilet articles in great variety.

PRISMATIC colors and scattered rays, common to other spectacles, are by the scientific principles of their construction entirely avoided in the Diamond. Being perfectly free from deleterious substances, they never tire the eye, and can be used with comfort and satisfaction equally by lamp, gaslight or daylight. For sale by Ballenger, jeweler.

OUR PUBLIC SCHOOLS.

Notes and Comments by Superintendent Galbraith.

PLEASANT RIDGE.

SINCE our last visit, the school grounds have been fenced and planted in trees. This is a step in the right direction. Census report, 92; pupils enrolled, 49; present, 31. The trustees are John E. Wells, J. F. Kenard and William Case. Mr. Wells has visited the school.

Miss Ella Galbreath, after a preparation of more than a year in the National Normal University, at Lebanon, Ohio, is teaching this school. She reads the works on teaching from the Teachers' Library, and uses the written methods. In a word, we found Miss Galbreath not only a theoretical, but a practical teacher. Her classes in arithmetic showed the most thorough and excellent training, so that they were able to respond promptly to all questions and examples, independent of the book. Her grammar classes likewise acquitted themselves well. Nor does she neglect compositions, but requires this kind of exercises from all who can write a legible hand. I found the discipline of the school first-class, and the pupils working under a high pressure of enthusiasm.

LAWRENCE CREEK.

Census report, 84; number on roll, 54; number in attendance, 38. The house is in good repair, but dreadfully in need of proper seats. But I have grounds to hope for a better report next year in this respect. The trustees are Collins Rickerts, Thomas Killgore and Jennings. They have not visited the school.

Miss Annie Perrie is teaching here. She is an energetic and painstaking teacher, and has her heart in her work. She is not able to use the written work as far as she would on account of the want of proper desks. This is the more to be regretted, as she has a very interesting school of bright and earnest pupils. The discipline of the school is first-class. I was very much pleased to find Miss Perrie endeavoring to interest her pupils in history and geography. These subjects, if properly presented, more than any others, lay the foundation of literary culture and taste.

L. W. GALBRAITH.

OUR NEIGHBORS.

CHESTER.

THE house at the corner of Railroad and Main streets doesn't belong to Vicory and is not occupied by Mr. Park, as stated by your correspondent yesterday.

There is a mistake in the Chester correspondent's statement as to the trial of James Tolle. The case was submitted to a jury. The jury not agreeing in a verdict, the prosecution agreed to let the case be dismissed upon Tolle's being bound over to keep the peace and be of good behavior. The Mayor dismissed the warrant sworn out by Tolle against Mrs. Williams on his own motion, there being nothing in the case.

MAYS LICK.

DR. J. B. Lindsey is in our midst again. Mrs. J. A. Jackson has been quite poorly for several days with something like malaria. We have had a very fine tobacco season. The bulk of it will be finished up this month and sold.

John D. Raymond left for the West last Wednesday, to invest the Piper heirs' money in land in Kansas.

John Mc'ormick has sold his farm—formerly the Sumrall place, to W. E. Pogue for \$80 per acre cash, about seventy acres more or less.

Born, to the wife of J. D. Riley, on the 22nd instant, a bouncing boy—George Washington. Jake was in town the next day and bought him a hatchet.

Abb Evans, County Clerk of Fleming, and his wife were visiting their sisters here last Saturday and Sunday—Mrs. Thomas Hopper and Miss Jennie Evans.

It has been intimated of late that W. W. Baldwin was going to compel all owners of stock running on the turnpike to put them up. It certainly would be a God send for this place, for it is over-run with hogs.

'Squire John B. Raymond bought the Jas. M. Piper farm, three miles west of this place, containing seventy acres more or less, for \$105 per acre. He has sold to George Waddle thirty acres of same with the improvements for \$110 per acre.

and everything in nature of eruptions, blotches, pimples, ulcers, scrofulous humors, and incipient consumption, which is nothing more nor less than scrofula of the lungs, completely out of the system. It stimulates and invigorates the liver, tones up the stomach, regulates the bowels, purifies the blood, and builds up the weak places of the body. It is a purely vegetable compound, and will do more than is claimed for it. We refer to Dr. Pierce's "Golden Medical Discovery."

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at the drug stores of J. C. Pecor & Co., and S. P. Campbell & Co., of Aberdeen Ohio.

A TERRIBLE LOSS OF LIFE.

NORTHERN ITALY THE SCENE OF DESOLATION AND FAMINE.

Further Accounts of the Earthquake Report the Number Killed Over Two Thousand—Over One Hundred Villages Believed to Have Been Destroyed.

ROME, Feb. 26.—Bussana, a village of 800 inhabitants, situated in Northern Italy, was totally destroyed by the earthquake. Nearly half of the villagers met death beneath the ruins of their houses. There were over 100 little villages in the province of Perto Maurizio, built on the hillsides, and it is feared every one has been destroyed, with enormous loss of life. At the present writing the known loss of life in Italy alone exceeds two thousand. This number will be largely added to when the telegraph lines have been repaired and communication established with remote points.

The earthquake was strongly felt at sea. Off Genoa it woke sailors from sleep. Oscillations of the earth were felt at Geneva and other parts of Switzerland, the movement being from north to south. Seismic instruments are quiet, and no further disturbances of the earth are feared.

The disaster at Mentore, Monte Carlo, Nice, and at other points along the Riviera have not been overdrawn. Monte Carlo is the least injured of the cities along the coast and has become a refuge for thousands of homeless. A bread famine is imminent in consequence.

The number of killed at Nice and in the immediate vicinity is twenty. The list of injured is large. Miss Chapel, an American, was buried alive in the ruins of the Villa Natal, but was rescued unhurt. Baron Rothschild has chartered a Pullman car and fled north with his family. All the trains leaving Nice for the north are crowded with English and Americans. The Prince of Wales is still at Cannes.

In Memory of the Duke of Albany.

CANNES, Feb. 26.—The fountain of St. George, erected at the foot of the villa Nevada by the French residents of this town in memory of the Duke of Albany, was unveiled yesterday. The Prince of Wales was present. The Duc de Chartres, on behalf of the Comte de Paris, delivered an oration in which he said that the French colony was happy to offer the memorial as a pledge of sympathy to the British nation. The orator's sentiments were echoed by the mayor of the town in a short address. The Prince of Wales returned thanks. Among those present were many English and French residents and visitors.

The Prince of Wales leaves Cannes to-day.

Germany's Affairs.

BERLIN, Feb. 26.—The idea is gaining ground that the enhanced strength of the National Liberals will lead to a rupture of the National Liberal and Conservative coalition after the passage by the reichstag of the septennate bill.

The Post advises the government not to overstrain its bow, but to confine itself as before, to absolutely necessary measures, especially those relating to financial affairs.

It is expected that the septennate bill will pass the three readings without debate.

The Vossische Zeitung, radical, calculates that the government will have a majority of six only.

Parnell Again Beaten.

LONDON, Feb. 26.—In the commons last night, Parnell moved exemption from closure of measures increasing the stringency of the criminal law in Ireland.

Sir Michael Hicks-Beach declared emphatically that the government declined to entertain such a proposal.

The amendment was rejected by a vote of 264 to 155.

Spain's Government.

MADRID, Feb. 26.—The government is trying to induce Republicans abroad to return to Spain and accept amnesty, the object being to put a stop to revolutionary propaganda. The Military party and Conservatives stoutly oppose the government's course.

ROBERTSON LOCKED OUT.

He Makes Another Attempt to Enter the Indiana Senate.

INDIANAPOLIS, Ind., Feb. 26.—Col. Robertson again demanded admittance to the senate chamber, and was denied by the doorkeepers. All doors except one were barricaded, and men were excluded from the galleries. Robertson says he will institute no litigation to oust Smith, but will content himself by making a formal demand daily for admission. Republicans in the senate took no part in yesterday's proceedings. A majority adopted resolutions asserting that no court yet held in Indianapolis had been for the purpose of reaching any decision in the election of a lieutenant governor. That inasmuch as Judge Niblack had said the senate was qualified to elect its presiding officer, and as it had elected Smith he alone was president. However, they were willing to submit the question of the lieutenant governorship to the supreme court as arbitrators, and abide by its decision. When your correspondent mentioned this resolution to Judge Niblack he laughed heartily, and said it struck him as a huge joke to call upon the court to act as arbitrators after refusing to accept their decision as judges.

The Republicans talk conservatively and peacefully, and think that Robertson in the role of a martyr will secure the governorship next year. The Democrats are alert, and say that the peace talk of the Republicans is deceitful. Yesterday the Republican state officers bounced the old Democratic board of police commissioners and appointed another, composed of Republicans, with one Democrat. The latter, the Democrats say, is unreliable, and they fear that orders will be given to the metropolitan police to protect Robertson in another attempt to take possession of the presiding officer's chair. A petition for a rehearing in the case of the lieutenant governorship will be filed in the supreme court by Judge Turpie and Jason Brown, representing the appellee, Alonzo G. Smith, presiding officer of the senate.

A Dakota Blizzard.

BISMARCK, Dak., Feb. 26.—A terrible blizzard is blowing in the west, and the Northern Pacific eastbound passenger train is snowed in at Sentinel Butte. The wind is from the east. The previous storms drove the immense herds of Montana and Dakota into the shelter of the Utes' "bad lands," and this storm, it is feared, will send them to the unprotected plain. In a small herd of 150, owned by a citizen of Mandan, 100 have died in the storm.

POINTED PARAGRAPHS.

Topics of the Times Given in a Terse and Spicy Manner.

Kenyon College, Gambier, O., is to have a female seminary.

At Mechanicsburg, O., Hon. Wilmer H. Belville, aged fifty-one years, a member of the legislature from 1897-9, died.

An epidemic of measles has caused the New Carlisle, O., schools to close. One lady teacher is lying at the point of death from the disease.

Thieves smashed a plate glass window in George Beck's jewelry store, Dennison, O., and grabbed \$700 worth of goods. They locked the proprietor in.

A gray eagle, measuring seven feet from tip to tip, was killed by Mrs. John Rickard, near Scottsburg, Ind., who shot it with a rifle at a distance of one hundred yards.

The state officers yesterday bounced the Indianapolis board of police commissioners, and appointed in their stead John B. Elam, Nicholas Kuckie, and William Henderson.

Benjamin F. Taylor, LL.D., the poet, author and lecturer, died at Cleveland. He was born in New York state in 1822. He was a war correspondent during the rebellion and an author of marked ability.

The name of St. John county, Kansas, has been changed to Logan. The county was named in honor of St. John, the Prohibitionist, but it was changed, as one legislator said, "because St. John sold out his party."

A lava flow twenty miles in length and a mile wide, lasting several days, has occurred at the volcano Mauna Loa, near Honolulu. A column of fire 150 feet high belched from the crater at intervals during the eruption.

The New York brokers are doing a big business in trade dollars, buying them up at ninety and ninety-five cents, expecting to sell them to the government at their face value when the president signs the redemption bill.

There is great excitement throughout New York over the approaching execution of Mrs. Druse, the murderer of her husband, which takes place at Herkimer, next Monday. One crank has already offered his life to save a woman's neck. Big prices have been offered by relic hunters for bits of the wretched woman's clothing.

The room of Peter Eckert, an excellent electrician, of Pittsburg, and supposed anarchist, was examined by the police. Enough arms and dynamite to supply a small army were found. Infernal machines and bombs were abundant. Eckert is in jail a raving maniac. Monday night he tried to kill his landlady and all his friends, imagining them dynamiters.

Paid the Penalty With His Life.

PRINCESS ANNE, Md., Feb. 26.—James Stevens, colored, was hanged in the jail-yard here to-day for having committed an outrageous assault upon the person of Mrs. Trehearn, and aged lady living in the Dublin district on July 11, 1886. Stevens was convicted of the crime at the October term. He made no confession and died with stolidity. During his incarceration he made three attempts to escape from the jail by burning his way through the roof.

One Year for Cattle Stealing.

LEBANON, O., Feb. 26.—Judge O'Neill overruled the motion for a new trial in the case of Esek Braden, convicted last week of cattle stealing, and sentenced the defendant to the penitentiary for one year, the lowest term under the law for grand larceny.

New York's G. A. R. Commander.

ALBANY, N. Y., Feb. 26.—The G. A. R. state encampment last night elected Maj. George H. Treadwell as department commander.

The Weather.

WASHINGTON, Feb. 26.—Indications—Fair weather, followed by local rains or snow, warmer, southeasterly winds.

FINANCE AND COMMERCE.

Quotations of the Money Stock, Produce and Cattle Markets for February 25.

New York.—Money 4 per cent. Exchange steady. Governments steady. Currency sizes, 129½ bid; four coupons, 129½; four-and-a-halfs 119½ bid.

The stock market opened firm at yesterday's prices, but after the first call the market became feverish and weak, prices declining the first hour ¼ to 1 per cent. The decline was fully recovered by mid-day on buying by the Gould brokers. Since mid-day the market has reacted somewhat.

GOOCH'S MEXICAN SYRUP

OF WILD CHERRY, TAR, GLYCERINE, ETC. WILL CURE CONSUMPTION.

Ind is the best remedy for the cure of all affections of the Throat, Lungs and Chest, such as Consumption, Colds, Coughs, Asthma, Bronchitis, Whooping Cough, Croup, Pain or Oppression of the Chest, Hoarseness, Spitting of Blood, and all Pulmonary Diseases.

CONSUMPTION CAN BE CURED!

WE have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. Tuberculous matter is nothing more than nourishment imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what this Syrup does. It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It thus controls Coughs, Night Sweats and all other symptoms of Consumption. Consumption is one of the most loathsome and terrible of all fatal diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine; but a new era in the management of pulmonary diseases seems to be dawning upon the scientific medical world, and, since many distinguished physicians have acknowledged that consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its result to bring back health to their poor weakened frames, and joy to the hearts of their friends.

Consumptives, because all other things fail, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with threatening vice, menacing the health and existence of a vital organ; so commence at once at the first indication of a cough. TRY IT, you who suffer, and be convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. This remedy is in the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 cents? I so, make one more trial. Is not your life indeed worth one more trial? Test the truth of our words, only by one single bottle; and never give way to despair till you are certain there is no hope. It has cured thousands, and it will cure you. As we would plead with a friend to save him from taking his own life, we plead with you to save yourselves from a premature grave. We positively guarantee a perceptible and untimely improvement when the medicine is faithfully and persistently used.
